

Crude Protein, minimum	7.00%	When used as directed, #11 Mineralix Clarify tub will provide sufficient Diflubenzuron to prevent the development of fly larvae in manure of treated cattle. Existing adult flies will not be affected.
Crude Fat, minimum	3.00%	
Crude Fiber, maximum	1.00%	Start feeding this product early in the spring before flies begin to appear and continue feeding throughout the summer and in the fall until cold weather restricts fly activity. Allow free choice to cattle.
Calcium (Ca), minimum	9.00%	
Calcium (Ca), maximum	10.50%	Cattle should consume an average of 1.6 ounces of this product per 100 lbs. of animal weight per day, which is equivalent to 16 ounces per day for a 1,000-pound cow.
Phosphorus (P), minimum	6.00%	
Potassium (K), minimum	2.50%	<ul style="list-style-type: none"> Assure cattle are not starved for nutrients prior to feeding this product. Do not use in association with feeds containing supplemental selenium. Offer cattle one Vitalix #11 ClariFly Tub for every 15 to 25 head. Remove all other self-limiting nutritional supplements. Locate this product where cattle congregate (watering, loafing, shade areas). Replenish this product on a regular basis as needed.
Magnesium (Mg), minimum	2.50%	
Cobalt (Co), minimum	50 ppm	
Copper (Cu), minimum	1,200 ppm	
Selenium (Se), minimum	26 ppm	<ul style="list-style-type: none"> If intake of this product is below 1.6 ounces per 100 pounds animal body weight per day for cattle, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle. If intake of this product is above 1.6 ounces per 100 pounds animal body weight per day for cattle, reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.
Zinc (Zn), minimum	3,200 ppm	
Manganese (Mn), minimum	2,400 ppm	
Iodine (I), minimum	50 ppm	
Vitamin A, minimum	100,000 IU/lb	Introduction of this product after adult fly infestation is established may require treatment of cattle with supplemental sprays to reduce the adult fly population coming from outside sources.
Vitamin D3, minimum	20,000 IU/lb	
Vitamin E, minimum	75 IU/lb	<p>Does not contain any prohibited animal by-products.</p> <p>Warning: Contains copper. Do not feed to sheep due to possible copper toxicity.</p>

Ingredients	Beet Molasses, Vegetable Fat, Monocalcium Phosphorus, Dicalcium Phosphorus, Calcium Carbonate, Magnesium Oxide, Processed Grain Byproducts, Zinc Sulfate, Monosodium Phosphate, Manganous Oxide, Zinc Oxide, Copper Sulfate, Manganese Sulfate, Sodium Selenite, Basic Copper Chloride, Dried Aspergillus Oryzae Fermentation Extract, Manganese Polysaccharide Complex, Zinc Polysaccharide Complex, Copper Polysaccharide Complex, Vitamin E Supplement, Ethylenediamine Dihydriodide, Yeast Culture, Mineral Oil, Cobalt Glucoheptonate, Cobalt Carbonate, Choline Chloride, Biotin, Folic Acid, Thiamine Mononitrate, Calcium Pantothenate, Pyridozine Hydrochloride, Niacin Supplement, Riboflavin Supplement, Vitamin B-12 Supplement, Dried Streptomyces Mearl Fermentation Soluble, Vitamin A Supplement, Vitamin D3 Supplement
