TEXTURED BEEF FEEDS

Everything Ag
Since 1943

FEEDING MANAGEMENT TIPS

Always provide clean fresh water.

Offer free choice mineral and roughage at all times.

For optimal health, maintain deworming and vaccination schedule.

Do not allow feed to accumulate in feeders.

Always provide fresh feed, free of mold.

Check with our Animal Health team for more information on deworming and vaccinations.

OUR TEXTURED FEEDS

Feedlot

Protein-13% Fat-4% Fiber-10.5%

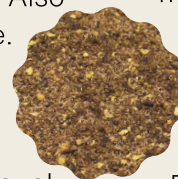

Corn based & high in energy. Recommended for growing stocker & beef cattle that are intended for slaughter. Feed at a rate of 1-2.5% of body weight.

Calf Choice

Protein-18% Fat-3.0% Fiber-11.00%

Contains *Deccox* for the prevention of coccidiosis in calves & cattle. Designed for early weaned calves or moving bottle fed calves onto dry feed. Feed at a rate of 1.5lbs. per 100lbs of body weight; feed for at least 28 days during periods of Coccidiosis. Also contains *Diamond V XPC®* yeast culture.

Butler Beef

Protein-10% Fat-3.7% Fiber-14%

Moderate protein with a good roughage level containing *Bovatec* (lasalocid) for increased rate of weight gain. Recommended for conditioning bulls after the breeding season.

Stocker Pro Feedlot

Protein-13% Fat-4.0% Fiber-11%

Designed for growing cattle on pasture or dry lot for an increased rate of gain. Contains *Rumensin* and *Clarify* for increased weight gain and fly control.

Bull Conditioner

Protein-12% Fat-3.8% Fiber-13%

Contains a blend of oats and corn for moderate fat deposition. Recommended for developing young bulls & heifers. Feed at a rate of 1-2.5% of body weight per day.

Breeder Meal

Protein-20% Fat-2.5% Fiber-6.5%

High energy range mix that contains 20% salt. Recommended for heifers & cows on moderate quality pasture; feed free choice. Cows should consume 4-5 lbs. per head per day.

Range Mix #2

Protein-25% Fat-1.5% Fiber-7%

High protein range mix for all cattle grazing low quality pasture; feed free choice. The meal to salt ratio is 2:1 with salt being 32%.

Range Mix 15-0

Protein-15% Fat-3.05% Fiber-8.5%

Is a salt meal with high grain content. Recommended for all cattle grazing good quality pasture; feed free choice. The meal to salt ratio is 3:1 with salt being 24%.

Beefmaker

Protein-10% Fat-3.4% Fiber-15.50%

Contains cottonseed hulls & high in fiber to decrease the chance of bloat & acidosis. Recommended for maintaining heifers & bulls. Feed at a rate of 1-2.5% of body weight per day.

Available in 50lb. bags, totes, & bulk. Call Inside Sales for more information (979)-778-6000
