

PRODUCERS

COOPERATIVE ASSOCIATION

Proudly owned by farmers and ranchers since 1943.

External Parasites in Cattle

Warm weather has arrived and your cattle will be experiencing flies, ticks, lice, gnats and a host of other external parasites. If not treated, these transmitters can spread disease and reduce both weight and performance. Producers offers a variety of products to help fight off these parasites. Products include pour-ons, sprays, dust, insecticide ear tags, backrubbers, loose mineral with IGR, feed blocks and tubs.

To learn more about external parasite control, call Producers.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursday or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

High winds, limited rainfall, high input costs and market prices have forced Brazos Valley farmers to make adjustments to their growing plans. Burleson county farmer, Jay Wilder, has more on this week's From The Ground Up.
