

PRODUCERS

COOPERATIVE ASSOCIATION

Proudly owned by the farmers and ranchers of the Brazos Valley since 1943.

Backyard Events & Mosquito Control

Homeowners all across the Brazos Valley are preparing for upcoming outdoor family events. Maybe it's a brunch for Mother's Day, a backyard BBQ for the 4th of July or horseshoe tournaments for Memorial Day weekend. The lists of to-dos continue to grow as last minute details are remembered. However, mosquito prevention and control seem to always slip past the list as homeowners prep for their events. Producers offers several mosquito preventative and control options to fit your needs.

See available mosquito product control methods.

- **Destroy Breeder Sites:** Dump or drain stagnant water to eliminate egg laying sites.
- **Treat Breeding Sites:** When water cannot be dumped or drained (water troughs), use a larvicide directly in the water such as a Mosquito Dunk. This product is safe for other animals to consume.
- **Backyard Foggers:** Foggers will temporarily relieve mosquito activity. This method is most effective just prior to an outdoor event.
- **Residual Sprays:** Residual sprays are designed to suppress mosquito activity for up to a month.
- **Area Control Options:** Mosquito Eradicators

For recommended treatment or preventative methods on mosquitos, call Producers at 979-778-6000

Indoor & Outdoor Flea Control

The pesky flea is a nuisance in many ways. Not only do they cause your pets turmoil, but they bite humans too, causing intense itching and irritation. Fleas can also transmit bacterial infections and tapeworms. Their ability to spread is quite impressive as they shed thousands of eggs on your pet, in your home and yard. Do not ignore the early signs of fleas or the consequences could be unbearable. From preventative monthly treatments for your yard and pet to eradication methods, Producers offers several products to fit your needs.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursdays or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

This weeks From The Ground Up segment covers the upcoming winter wheat harvest with Michael Kurtz.
