Deficiency Risks in Cattle this Winter

Calving season is fast approaching and now is the time to support fetal health in your herd. As forage goes dormant in the winter, the availability of vitamins & minerals drastically decreases. Free choice mineral is a simple way to supplement your cattle and fill in those nutrient gaps while supporting a healthy pregnancy. Producers offers free choice mineral in bags and tubs. Call Producers' nutritionist, Robert Barrett, for more information at 979-778-2864.
