Deficiency Risks in Cattle this Winter

Calving season is fast approaching and now is the time to support fetal health in your herd. As forage goes dormant in the winter, the availability of vitamins & minerals drastically decreases. Free choice mineral is a simple way to supplement your cattle and fill in those nutrient gaps while supporting a healthy pregnancy. Producers offers free choice mineral in bags and tubs.

Call Producers' nutritionist, Robert Barrett, for more information.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursday or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

Beef prices have continued to rise in response to consumers desire for higher quality beef.

Tune in for further details on this weeks From The Ground Up with AgriLife Extension Economist, Dr. David Anderson.
