1800 N Texas Avenue, Bryan TX

**Lunch provided
to registered
attendees!**

Soil Fertility

Start your hayfields off right this season by checking soil fertility. Research supports soil sampling and testing as one of the best management practices available. Growers should take the opportunity to learn as much as possible about their soil in order to produce their best yields. Supplementing the nutrient gaps in the soil will support the development and growth of the forage through the season.

Call the Producers Agronomy Team for more information!
979-778-6000

Rose Care Video

Producers Garden Center is stocked with a nice selection of roses just in time for Valentines Day! Speaking of roses, our Rose Care video is now available! Click the link above and learn the best practices for pruning, fertilizing and preventing fungus in your roses.

Brought to you by the Producers Garden Center Team.
Bryan, TX: 979-778-6000

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursday or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

Kelsey and Colt continue to carry on their mothers legacy on their family ranch. Despite the strife and struggle that farmers and ranchers encounter each day, they share a love for agriculture like no other. Click the link for further details on this weeks From The Ground Up.
