External Parasites

With warmer weather on the way, cattle will be experiencing flies, ticks, lice, gnats and a host of other external parasites. If not treated, these transmitters can spread disease and reduce both weight and performance. Producers offers a variety of products to help fight off these parasites. Products include pour-ons, sprays, dust, insecticide ear tags, backrubbers, loose mineral, feed blocks and tubs. For more information on how to prevent and treat external parasites, call Producers at 979-778-6000.
