Heidenheimer Location Delivery Schedule

- Tuesday Delivery—Order Deadline Saturday at noon
- Friday Delivery—Order Deadline Tuesday at noon

New Pre & Post Emergent that Helps Control Grassburs

Bayer's new Rezilon Herbicide has officially hit the market, and is available at Producers Cooperative Association. Rezilon provides better hay quality by controlling summer and winter annual broadleaf weeds and grasses. It helps support managing annual grasses in perennial grass hay fields, a quality few pre- or post-emergence herbicides are able to maintain. For year-round control of broadleaf and annual grass weeds, Rezilon is applied in both late summer and late winter. For more information on

keeping your pastures clean and clear, call the Producers Agronomy division today at 979-778-6000.

Grape, Berry and Fruit Tree Propagation Online Workshop

On Friday, February 5, 2021 from 9am to Noon! Speakers from Texas A&M AgriLife will present information on the planting, propagation and proper pruning of grapes, berries, and fruit trees. Speakers include Michael Cook and Tim Hartman of Texas A&M AgriLife Extension.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursdays or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate. This weeks segment covers Feral Hogs in Local Communities with *Associate Professor & Extension Wildlife Specialist*, Dr. John Tomecek.
