Robert Barrett, PAS - Producers Cooperative, Feed Nutritionist

Pre-Emergent

It's time to start thinking about your pre-emergent herbicide options. Whether it be in a yard or pasture, we are sure to have a product to meet your needs! By applying a pre-emergent, you can prevent unwanted weeds from germinating. These products can help prevent sandburs, crabgrass, and other unwanted broadleaf weeds.

Call Producers for more information.

Supplementing Nutrient Gaps

The weatherman says that winter has officially arrived. With the recent hard freeze, grass quality is down and nutritional demand is high. Producers offers a variety of cubes, easy to use protein tubs and a large selection of performance proven feeds to match all of your cattle herds needs this season.

Call Producers for more information on how to supplement protein and energy this winter.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursday or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

Beef production continues to make adjustments based on decisions made several years ago.

Tune in for further details on this weeks From The Ground Up with AgriLife Extension Economist, Dr. David Anderson.
