## COOPERATIVE ASSOCIATION

Proudly owned by the farmers and ranchers of the Brazos Valley since 1943.

### Forage Production

Don't miss out on the opportunity to maximize your pastures potential. From weed identification, customized fertilizer blends or choosing the right variety of seed to fit your program, we can help you with all of your forage production needs. Call the Producers Agronomy team for more information at 979-778-6000.

### Promoting Body & Antler Growth in Deer

Now that rut is over, it is time to start supplementing deer for antler and body growth. For white-tail deer with plenty of native foodstuffs, we recommend Producers 20% Deer Pellet. If their natural food source is in short supply or you are feeding deer in a pen situation, we recommend our 16% Deer Pellet. The 16% Deer Pellet is also a good choice for some of your exotic species. In addition to our own high quality line of feed, we also carry Double Down Deer Feed. Call our on staff nutritionist, Robert Barrett, for more information at 979-778-6000.

### Texas Agriculture Daily: Texas Farm Bureau Farmers, Ranchers need help to recover from Winter Storm Uri

Texas agriculture suffered devastating losses from Winter Storm Uri in mid-February, and farmers and ranchers need assistance to rebuild and recover, Texas Farm Bureau (TFB) President Russell Boening told a House committee this week.

Boening testified before the House Agriculture and Livestock Committee on the significant effects of February's winter storm on farmers and ranchers across the state. Preliminary data from Texas A&M AgriLife Extension shows agricultural losses exceed \$600 million.
