

PRODUCERS

COOPERATIVE ASSOCIATION

**Proudly owned by the farmers and ranchers of the
Brazos Valley since 1943.**

Aquatic Plant Life Control

As the weather continues to warm up, keep an eye out for aquatic plant life in your ponds and other aquatic areas. While some aquatics are beneficial to the environment, they can quickly get out of hand and take over your pond. There are a few different control methods that will help keep the plant life in your pond at the appropriate level. Producers has a wide variety of products to treat your pond, giving a clean and clear view for your livestock and fishing partner. Producers has on-hand experts that can help you identify your aquatic weeds and tailor a treatment plan to fit your program!

**Call Producers for any questions or tailored options for specific pond management situations.
979-778-6000**

Control the Flies

Heavy rains bring green grass to the pastures of the Brazos Valley, but it also brings heavier insect pressure. Flies can be quite a nuisance to cattle and cause many issues if not controlled. Without proper fly control, your herd can become stressed, suffer significant blood loss and quickly lose production. Production loss may include decreased milk production, reduced weight gain, and changes in grazing patterns. Producers offers a variety of sprays, pour-ons, dusts, insecticide tags and feed through options to help control the fly population in your herd.

**Get the most out of your herd and call Producers today.

From The Ground Up

From The Ground Up educates our friends and neighbors in the Brazos Valley about agriculture and its impact on their everyday lives. Be sure to watch our weekly televised segment at approximately 6:15 am on Thursdays or during the Saturday 6 o'clock evening news on KBTX-TV 3, Bryan-College Station's CBS affiliate.

This weeks From The Ground Up segment covers how the global markets are affecting the beef industry with Mr. Pete Scarmardo.
