Fall Lawn Care

While it's too late for pre-emergent to be put out with your winterizing fertilizer, broadleaf weeds will still be an issue come Spring time. Keep nuisance weeds; such as, henbit, dandelion, clover and chickweed out of your Spring lawn by spraying with a broadleaf weedkiller this fall. Producers Lawn & Garden manager, Jeremy Olson, has everything you need to keep your lawn healthy and clean of germinating weeds. For more information, call 979-778-6000 and ask for the Lawn & Garden team. We will be happy to help.
