FEEDING DIRECTIONS

The following table describes a hay replacement plan based upon the nutritional requirements of a 1,200 pound gestating cow consuming average to low quality hay or forage:

Forage/hay	14% High Energy Cube
19 lbs.	5 lbs.
16 lbs.	8 lbs.
12lbs.	11 lbs.

Feeding Producers 14% High Energy Cube is also an excellent way to get heifers and cows with low body condition back into shape prior to calving or breeding. Feeding rates in these circumstances should be governed by desired rate of gain or body condition score.
