

# PURINA® ACCURATION® HI-FAT BLOCK

**Specie:** Cattle, Sheep, Goats **Type of Feed:** Supplement **Form of Feed:** Block

**General Description:** A premium, weather-resistant, protein block with vitamins, minerals, and a higher level of added fat that is designed to provide additional energy to balance nutrient deficiencies in forages such as native hay or poor-quality forages such as dormant grasses or crop residues.

## PURINA® ACCURATION® HI-FAT BLOCK SUPPLEMENT FEED FOR CATTLE, SHEEP, AND GOATS ON PASTURE

### GUARANTEED ANALYSIS

Crude Protein, (Min).....	25.00 %
<b>This includes not more than 17.00% equivalent crude protein from non-protein nitrogen.</b>	
Crude Fat, (Min).....	10.00 %
Crude Fiber, (Min).....	3.00 %
Calcium (Ca), (Min).....	2.25 %
Calcium (Ca), (Max).....	2.75 %
Phosphorus (P), (Min).....	1.00 %
Salt (NaCl), (Min).....	2.25 %
Salt (NaCl), (Max).....	2.75 %
Potassium (K), (Min).....	1.20 %
Copper (Cu), ppm (Min) .....	18
Copper (Cu), ppm (Min) .....	21
Selenium (Se), ppm (Min) .....	1.20
Vitamin A, I.U./lb., (Min) .....	15000

### INGREDIENTS

**Note: ingredients differ by manufacturing plant**

Molasses Products, Processed Grain By-Products, Plant Protein Products, Urea, Soybean Oil, Magnesium Oxide, Feed Grade Hydrolyzed Vegetable Fat, Grain Products, Defluorinated Phosphate, Calcium Chloride, Salt, Attapulgite Clay, Calcium Sulfate, Calcium Carbonate, Vitamin A Supplement, Vitamin D3 Supplement, Sodium Selenite, Cobalt Carbonate, Manganese Sulfate, Ethylenediamine Dihydroiodide, Zinc Sulfate, Basic Copper Chloride.

### CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

### DIRECTIONS:

Accuration® Hi-Fat Block is scientifically formulated to be fed free-choice to mature beef cows, sheep, and goats along with adequate quantities of forage.

Consumption of Accuration® Hi-Fat Block should be approximately 1.0 – 3.0 pounds per head daily for cattle and 0.5 to 1.0 pound per head per day for sheep and goats depending on quality and quantity of forage.

Provide one 500-pound block for each 20 to 25 head of cattle or 50 to 75 head of sheep/goats, one 200-pound tub or block for each 10 to 15 head of cattle or 25 to 40 head of sheep/goats. Several weeks prior to, and during feeding of this product, provide a good quality mineral supplement that contains phosphorus.

Adequate forage should be provided at all times. Prior to introducing this product, animals should be accustomed to high forage diets. Do not offer this product in fields where crops are grown that are known to contain high levels of urease enzyme such as soybeans or in conjunction with other NPN containing feeds.

Accuration® Hi Fat blocks in boxes should be fed in the base of the box on well-drained ground.

Feed this product near the area where animals loaf and/or a water source. In large pastures, this product should be available in more than one location. If animals run out of blocks, observe them closely for three days to prevent overconsumption after refeeding. Provide an unlimited supply of clean, fresh water.

### Available Options:

Product No.	Package	Size	Feeding Rate
3003995-634	Plastic tub	200 lbs.	See Directions Above
3003995-650	Box	500 lbs.	See Directions Above
3003995-934	Box	200 lbs.	See Directions Above

<b>Product Features:</b>	<b>Product Benefits:</b>
Specially formulated for cattle consuming fair or poor-quality forages	Balances deficiencies in fair or poor-quality pasture or hay to improve forage utilization and optimize animal performance
10% fat content in a hard block form	Formulated to provide additional energy to cattle on poor quality forage or lacking energy in the diet  High energy nugget delivers additional fat to maintain body condition  Concentrated rumen-protected fat source for optimal energy utilization
Designed for self-feeding	Utilizes proprietary Intake Modifying Technology® that results in controlled consumption of multiple meals of supplement per day
Weather resistant	Product maintains integrity and nutritional value when exposed to wind, rain and sun with no need for special feeders or shelters
Available in block or tub form	Convenient to feed, allowing feeding location to be varied to encourage more uniform consumption of the available forage
Contains no animal products	Qualifies for many natural beef feeding programs

**IMPORTANT:**

Consumption of Accuration® Hi-Fat Block will vary depending on quality of forage, quantity of forage, condition of cattle, sheep or goats, previous feeding programs, and Accuration® Hi-Fat Block feeding location.

Animals may need to adapt to Accuration® Hi-Fat Block before the correct consumption is reached.

If consumption is low, examine forage quality and the block feeding location. If consumption is higher than desired the quantity/quality of forage may need to be increased, the blocks can be placed further away from the loafing or watering area, and/or reduce the number of blocks available to animals.

**USER TIPS:**

- If consumption is low, examine forage quality and the block feeding location.
- If consumption is higher than desired, the quantity/quality of forage may need to be increased, the blocks can be placed further away from the loafing or water area, and/or reduce the number of blocks available to animals.
- Animals may need to adapt to Accuration Hi-Fat Block before the correct consumption is reached.
