Vitamin D3, I.U./LB, (Min)	600
Vitamin E, I.U./LB, (Min)	150

*INGREDIENTS

**Please refer to the feed bag for list of ingredients*

DIRECTIONS:

Feeding Purina® Equine Junior® Horse Feed with Forage:

Purina® Equine Junior® Horse Feed is designed to be fed as a complete feed. If necessary, you may also feed with good-quality hay or pasture – up to a maximum of 5.0 lbs per day – to relieve boredom.

You should reduce the amount of Purina® Equine Junior® Horse Feed fed by 1.0 lb for every 1.5 – 2.0 lbs of hay offered.

A minimum of 6.0 lbs of Purina® Equine Junior® Horse Feed should be fed per day to meet the minimum daily requirements of protein, vitamins and minerals.

For best results, do not feed more than 1.0 lb of hay per 100 lbs of your horse's body weight when feeding Purina® Equine Junior® Horse Feed.

BEST RESULTS:

Any feed changes should be made gradually over a period of 7 to 10 days. Changes in the rate of feeding should not exceed 1.0 lb per day for each horse. Feed at regular times – at least twice daily with three daily feedings preferred. Reduce and/or delay feeding a horse which is hot, excited or showing pain, has fever or diarrhea. Consult your veterinarian if any problems arise. Prevent rapid eating. Let horses feed in natural position from large feed containers. Have plenty of fresh, clean water available at all times. Observe horses daily. Consult your veterinarian for proper preventative health care. Maintain a regular deworming and vaccination program. Be sure that your horses are free of dental problems.

DIRECTIONS:

Daily feeding chart for weanlings, yearlings and two-year-olds.

LBS/Day of Purina® Equine Junior® Horse Feed (when fed as a complete feed without roughage)										
Light Breeds (Estimated mature weight of approximately 1000 lbs):										
Weight of Horse (LBS)	300	400	500	600	700	800	900	1000		
Moderate Growth	10.00	11.00	11.50	12.75	14.00	14.50	15.25	15.75		
Rapid Growth	11.25	12.00	14.00	15.50	16.50	17.00	17.25	17.50		
Large Breeds (Estimated mature weight of approximately 1500 lbs):										
Weight of Horse (LBS)	600	700	800	900	1000	1100	1200	1300	1400	1500

Rapid Growth	15.25	17.00	19.00	20.50	22.00	23.25	24.50	25.00	25.50	26.00

Available Options:

Product No.	Package	Size Diameter
3003277-506	50# Bag	5/32 – 11/64 (Pelleted & Extruded)

Product Features:	Product Benefits:
Complete Feed with High-Quality Hay Built In*	Addresses nutrient variability of hay or pasture and promotes consistent nutrient intake, providing a consistent diet for growing horses
Purina® Amplify® High-Fat Nugget	Contains multiple sources of fatty acids, including flaxseed, stabilized rice bran and vegetable oils, to help maintain body condition, shine and bloom.
100% Vitamins and Minerals**	Designed to meet the specific nutrient needs of young horses, including Phosphorus, Copper, Zinc, Selenium, and Vitamin E for optimal skeletal development.
Combined Energy Sources	Precise blend of fats, fibers and soluble carbohydrates helps promote a steady growth rate.
Highly Digestible Protein	Protein sources selected for optimal amino acid profile to support proper development of muscle, bone, skin, hair and hooves.
Excellent Palatability	Lower-sugar, higher-fat cane molasses and soy oil blend for great intake without sorting.

*Minimal hay can be used to alleviate boredom in weanlings to two-year-olds, but it is not required when Purina® Equine Junior® horse feed is being fed as recommended.

** When fed as directed, with free-choice or added salt, based on Nutrient Requirements of Horses Sixth Revised Edition – 2007, published by the National Research Council.

CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects.
 Do not feed moldy or insect infested feed to animals as it may cause illness, performance loss or death.
USE ONLY AS DIRECTED
